EDUCATION

California State University, Fullerton | Fullerton, CA

Bachelor of Science, Electrical Engineering, Minor, Computer Science

Expected in 2028

TECHNICAL SKILLS & CERTIFICATIONS

Programming: C++, C#, Python, HTML | Tools: Git, Linux, Multisim, Microsoft Office

Relevant Coursework: Microcontrollers, Digital Logic, Information Technology

Certifications: CompTIA IT Fundamentals (ITF+); Adobe Certified Professional — Illustrator

PROJECTS

Institute of Electrical and Electronics Engineers September 2026 - Present

WALL-E Robotics Project

Electrical & Computer Engineering Team Member

- Collaborating on the development of a WALL-E-inspired robotic platform.
- Participating in sensors, wiring, and motor/power subsystem development.
- Contributing to motion control and peripheral interfacing efforts

WORK HISTORY

Target | Orange, CA June 2026 - Present

TARGET TEAM MEMBER - Closing Expert, Fulfillment, Inventory & General Merchandise

- Analyze and troubleshoot inventory discrepancies by investigating stock records, identifying inconsistencies, and implementing solutions to maintain operational accuracy.
- Execute time-sensitive fulfillment operations while balancing efficiency, accuracy, and competing priorities in a high-demand environment.
- Coordinate inventory management, merchandise replenishment, and daily operational workflows to maintain organized and efficient store operations.
- Collaborate with cross-functional teams to resolve operational challenges, adapt to changing priorities, and support consistent workflow performance.

Disneyland Resort | Anaheim, CA February 2022 - June 2026

FOOD AND BEVERAGE CAST MEMBER

- Maintained operational efficiency in a high-volume environment through effective problem-solving, multitasking, and decision-making under pressure.
- Monitored inventory, performed product quality checks, and maintained accurate point-of-sale transactions while adhering to established operational standards.
- Collaborated with team members to troubleshoot service disruptions, coordinate daily operations, and deliver consistent guest experiences.
